DO SPORTS AND PLAY MUSIC FOR BOYS AND GIRLS

Scouting means unforgettable experiences, friendships and a lot of fun with kids and teens of the same age. Living in a community lies at the centre. Here children learn the language, new games and what children like to do in Switzerland. They can run around, play, laugh, sing, cook and do handicrafts. At the same time, the kids learn to take on responsibility for themselves and others and to shape their own leisure time.

The groups usually meet up on Saturday afternoons for two to four hours. Sometimes even for an entire weekend or a multi-day camp. These activities take place without the parents and are accompanied by young adults. They are well-trained and are supervised by adults.

The scout movement is the largest youth organisation in Switzerland and politically and religiously independent.

Everyone can join the scouts. Compared to other leisure time activities, scouting costs very little. Should the costs for joining and the equipment be too expensive, we always find a solution with the scouts!

The scout activities take place in groups all across Switzerland. Should you have questions of any kind or wish to join, you can contact the following person:
